2. Services Provided

Orbit Option Ltd offers a digital platform that allows users to speculate on the price movement of financial instruments through binary options trading.

Users do not acquire ownership of any underlying assets. Binary options are time-based financial contracts where the outcome is determined by a "yes" or "no" proposition based on the predicted direction of an asset's price within a specified timeframe.

3. Risk Disclosure

Trading binary options involves significant risk and may result in the total loss of your investment. Due to the speculative and short-term nature of binary options, losses can occur rapidly and may exceed expectations.

You acknowledge and accept all risks associated with binary options trading and are solely responsible for determining whether such trading is appropriate based on your experience and financial condition.

4. No Investment Advice

The Company does not provide investment advice, portfolio management, or personal recommendations. Any market commentary, educational content, or analytical materials are provided for informational purposes only and do not constitute financial or investment advice.

5. Account Registration and Verification

As part of our Know Your Customer (KYC) procedures, you must provide identification and address verification documents as requested. We may request additional documentation to validate the source of funds, transaction purposes, or unusual activity under our Anti-Money Laundering (AML) procedures.

Failure to comply may result in suspension, restriction, or termination of your account.

6. Trade Execution

You are solely responsible for submitting, modifying, and managing trades through our platform.

We do not guarantee execution at a specific price or time. Execution may be affected by technical factors, liquidity conditions, and market volatility.

Payout ratios are predefined and may be adjusted by the Company in response to market conditions.

7. Payouts and Expiry

Each binary option contract includes:

- A fixed payout percentage
- A predetermined expiry time

If your prediction is correct at expiry, the agreed payout will be credited to your account. If incorrect, the invested amount will be forfeited.

All outcomes are final upon expiry unless a verifiable technical error has occurred. We reserve the right to modify payout structures or restrict instruments at any time.
